

# FRIENDLY REVIEW SERVICE

## WHAT IS THE FRIENDLY REVIEW SERVICE?

The Friendly Review Service is a resource for confidential, impartial, and constructive feedback for papers, abstracts and conference posters.

You may submit a work for review at any point during the writing process.

## WHO PROVIDES THIS SERVICE & WHO IS IT FOR?

The members of the Research Support Group provide this service.

The review service is free and limited to current Research Support Group members!

## HOW DOES IT WORK?

Your work will be informally reviewed by one to two people. They independently provide you with comments that will support your writing process as you prepare your paper, abstract or poster for publication.

Comments will be on structure, formatting, and comprehensibility (including writing style, to some degree), but will not necessarily include spelling or proofreading style corrections.

## WHAT IS THE TURNAROUND TIME?

Turnaround time for the review service is approximately one month for papers, and approximately one week for abstracts and posters.

The reviewers will do their best for the quickest turnaround time possible within the aforementioned parameters.

Last minute submissions will not be accepted.

## HOW DO I SUBMIT A WORK?

If you would like to utilize the service, please send your request with a copy of your work in an email attachment to:
